More than chemistry

_SOPHIM proposes a large range of active ingredients to develop very soft textures making your formula unique!

> from OLIVE

Phytosqualan®

High performing Natural emollient bringing optimal comfort to Your skin.

Phytosqualan® is a natural vegetable squalane, sourced from Olive, renewable vegetable source, and recognized as a major ingredient in Cosmetic formula.

SOPHIM is leader in vegetable squalane's production and thanks to an advanced technology, and unique process, offers a premium quality ingredient.

Phytowax®

is a range of natural waxes, sourced from Olive, offering unique sensory properties.

Phytowax® range has been developed to fulfil formulators' requirements and offers them key benefits ; Different melting points at your disposal to obtain creamy and smooth textures, silky , easy spreadable and with a nice texturizing effect.

*Organic version available

Insapolive

Olive unsaponifiable.
Sourced from Olive.

Olive oil contains various key components suitable for skin, among which Squalene and sterols.

Insapolive is rich in Squalene, and participates actively in hydrating and soothing skin. It acts as a co-emulsifier too.

Biophytosebum®

Natural active emollient, Totally non-greasy, to offer you extreme sensory feel.

100% Natural vegetable origin, it is composed from unsaponifiables, and wax esters, sourced from Olive.

Biophytosebum® is highly moisturizing and nourishing, non occlusive, and offers a great alternative to silicones.

Patented process

*Organic version available

Our products applications

Moisturizing cream

Shave and after shave gels and creams

Make up & Foundations

> Texturizers

Vegeline

100% vegetable-based texturing emollient, alternative to petrolatum, paraffin,...

Vegeline®, is highly moisturizing by preventing water loss. Offers butters like feel, being very soft during application.

Vegeline®, acts as a thickening agent and brings viscosity, and offers film forming properties.

2 grades available for an optimal use.

*Organic version available

MC30 / MC300

Hydrogenated polyisobutene

Hydrogenated polyisobutene is a multifunctional oil base for cosmetic formulations.

MC30 and MC300 offer moisturizing and film forming properties, allow development of very soft textures.

Act as a substitute for Mineral oils.

2 grades available with 2 different viscosity levels.
